

NAMEBINE GIIZIS (SUCKER MOON) The fourth moon of Creation is Sucker Moon, when sucker goes to the spirit world in order to receive cleansing techniques for this world. When it returns to this realm, it purifies a path for the Spirits and cleanses all our water beings. During this time we can learn to become healed healers. Another teaching is that the sucker gave up his life for the Ojibwe in the month of February. The previous month, January is the hardest time of the year to get food because of the scarceness of game. In February it is easier to net these fish and it is believed that the sucker is giving his life for the Anishnawbe.
